Land acknowledgments

The territory on which HEC Montréal is located on unceded indigenous lands. This territory called Tiohtià:ke (Montréal). has long served as a site of meeting and exchange amongst Indigenous peoples, including the Haudenosaunee and Anishinaabeg. We honour, recognize and respect the Kanien'kehá:ka as the traditional stewards of the land and waters on which we conduct our activities. We respect the continued connections to the past, present and future in our ongoing relationships with Indigenous and other peoples within the Montreal community.
